## LSLI Template Instructions

## **Detailed Inventory**

Add detailed service line information using the webform or Excel Template. Recommendations if using Excel Template:

- 1) Save a copy of the workbook to your hard drive or network drive. Consider adding the system PWS ID or other system identifier to the file name (e.g., Inventory Template\_TX0000000) and indicating in the file name if this is the "initial" inventory or "update1", "update2", etc.
- 2) Each row in this worksheet represents one service line connecting the water main to the customer's plumbing. The worksheet is organized into sections:
- Location Information
- System-Owned Portion
- Customer-Owned Portion
- Other Potential Sources of Lead
- Additional Information to Assign Tap Monitoring Tiering
- Lead Service Line Replacement (LSLR)
- 3) Columns with aqua shading are required by the EPA LCRR. As explained in more detail on each field, entries for each field can either be selected from a dropdown menu or will require manual entry.

## **Location Information**

Unique Service Line ID*	Street Number	Street Name*	City*	Zip Code*
376	606	W. Duncan Ave	Mertzon	76941
370	709	W. Margaret Ave	Mertzon	76941
